Production - It generally takes 5 working days to produce your pilots log book.
 A Log book normally consists of 1 original and 1 blank log book (about 1 1/2" thick),
 The purpose of the perforated pages is to allow you to remove some pages to accommodate pictures glued into the book.
 Please supply the blank books and wings. We do not have access to either.
 The foil stamping type styles are for stamping the Pilots Name only.
 Out of town orders are generally sent COD through Canada Post.
 The books are tracked and you are assured of delivery.
 Payment is by Cash or Cheque when the books are picked up.
 Please note that the Navy Blue leather is quite dark and may look black unless you put it beside some black leather.
